

CONTENTS

Original Article

Chronological Decrease of Tuberculosis Incidence Rates by Organ Classification Based on a Birth Cohort Study in Japan, 1975–2005	1
Doctor's Delay in Endobronchial Tuberculosis	9
Evaluation Using QFT-2G/TBGL/LAM in the Patients with Osteoarticular Tuberculosis of Post-Treatment Period	277
Study on Pulmonary Lesions in Which Nontuberculous Mycobacteria were Detected by Percutaneous Aspiration — A Proposal to Add “Culture Positivity of Percutaneous Aspiration Material” to the Bacteriological Diagnostic Criteria of Pulmonary Nontuberculous Mycobacterial Diseases	283
Clinical Evaluation of a Line Probe Assay Kit for the Identification of <i>Mycobacterium</i> Species and Detection of Drug-Resistant <i>Mycobacterium tuberculosis</i>	291
Comparison of Drug-Induced Hepatitis Occurring in Elderly and Younger Patients during Anti-Tuberculosis Treatment with a Regimen Including Pyrazinamide	297
Clustering Analysis of <i>Mycobacterium tuberculosis</i> by Using the JATA (12)-VNTR System for Molecular Epidemiological Surveillance of Broad Areas of Japan	393
Evaluation of JATA (12)-Variable Number of Tandem Repeats as a Marker of the Source of Tuberculosis Outbreaks in Osaka	399
Estimating the Prevalence of Tuberculosis Infection among Healthcare Workers in Our Hospital by Repeat QFT-G Testing	405
Contact Investigation Using QuantiFERON-TB® Gold Test to Evaluate TB Exposure in 61 Subjects in a Hospital Setting — (2) Change in QuantiFERON Response during One Year after Exposure	411
Comparative Evaluation of Acid-Fast Staining for the Detection of <i>Mycobacterium fortuitum</i> — Clinical Performance of Fluorescent and Ziehl-Neelsen Staining	461
A Study of Relapse/Recurrence Cases after Surgical Treatment for Patients with Pulmonary Nontuberculous Mycobacteriosis	469
An Exploratory Study on Factors Related to Tuberculosis Preventive Intentions and Behaviors: Results from Surveys with Seminar Participants of the National Federation of Community Women's Organization for Tuberculosis Control and Female College Students	525
Effectiveness of Comprehensive Variable Number of Tandem Repeat (VNTR) Analysis in Areas with a Low Incidence of Tuberculosis	535
A Molecular Epidemiologic Analysis of <i>Mycobacterium tuberculosis</i> among Filipino Patients in a Suburban Community in the Philippines	543
Evaluation of the Characteristics of Tuberculosis Patients in Ashikaga Red Cross Hospital, Tochigi Prefecture, Japan (2007–2011)	589
Extensive Genetic Analysis of Clinical Tuberculosis Isolates and Analysis of Host Factors to Evaluate Rapid Development of Multidrug Resistance during Initial Treatment	595
Clinical Factors of Pulmonary Tuberculosis in Non-Tuberculosis Wards and Its Incidence among Contact Patients and Healthcare Workers in Our Hospital Using QuantiFERON® Gold Testing	605
A Comparison of Chest Radiographs between Patients with Pulmonary <i>Mycobacterium kansasii</i> Infection and Those with <i>Mycobacterium tuberculosis</i> Infection in the Initial Stage of Disease	619
Clinical Experience Using Rifabutin for Treating Infection with <i>Mycobacterium tuberculosis</i> in Elderly Japanese Patients	625
A Clinical Investigation of Seven Patients with Pulmonary Tuberculosis Who Developed Mixed Liver Injury during Oral Anti-Tuberculosis Treatment	647
Use of Regular Check-Ups after Completion of Treatment for Latent Tuberculosis Infection	653
Medication Support and Treatment Outcome in Homeless Patients with Tuberculosis	659
Nutritional Assessment upon Admission for Predicting Delay in Negative Bacillary Conversion among Patients Treated for Pulmonary Tuberculosis	697

Clinical Evaluation of Inpatients with Tuberculosis Diagnosed after Admission	
— Comparison of Characteristics of Patients Diagnosed With and Without the Acid-Fast Bacillus Test	721
Comparative Study of the Efficacy of the Cobas® TaqMan and LAMP Assay for the Rapid Diagnosis of Tuberculosis	727
Short Report	
Interpreting “Equivocal” Results Obtained from the QuantiFERON®-TB Gold In-Tube Test in Contact Investigations	301
Impact of Introducing Rifampicin on the Treatment of Tuberculosis during the 1970’s in Japan	417
Efficacy of the Treatment for Latent Tuberculosis Infection and Delayed Reactivation of Tuberculosis	667
Case Report	
A Case of Pulmonary Tuberculosis in Which Diagnosis Was Delayed Because of Prior Treatment with Fluoroquinolone and Metronidazole	305
A Case of Tuberculous Pleurisy Distinguished from Pleurisy Caused by <i>Mycoplasma</i> Infection	423
Outbreak of Extensively Drug-Resistant Pulmonary Tuberculosis in a Hemodialysis Facility	477
Primary Nasopharyngeal Tuberculosis	485
A Case of Dry-Type Tuberculous Peritonitis Due to Small Intestinal Tuberculosis Associated with Systemic Inflammatory Response Syndrome	553
A Case of Lung Disease and Spondylitis Due to <i>Mycobacterium intracellulare</i> in a Immunocompetent Patient	559
A Case of Miliary Tuberculosis Complicated by a Tuberculous Aneurysm of the Thoracic Aorta	629
Usefulness of Thoracoscopy under Local Anesthesia in the Diagnosis of Tuberculous Pleurisy Occurring during Infliximab Administration: A Case Report	633
A Case of Tuberculosis That Occurred during Treatment of Hepatocellular Carcinoma with Sorafenib	671
Drunkness Caused by Isoniazid in a Tuberculosis Patient with Extrapulmonary Lesions on Hemodialysis: A Case Report	703
A Case of Pleural Tuberculoma with New Pulmonary Infiltration during Anti-Tuberculosis Therapy	735
Field Activities	
On-the-Street DOTS for a Homeless Tuberculosis Patient— Case Report of a Patient Who Had Difficulties with TB Treatment Adherence	429
Public Health Nurse Support at Initial Community DOTS Meetings with Non-Hospitalized Tuberculosis Patients— Comparison of Patients Who Did and Did Not Complete Treatment	739
Review Article	
Drug Resistant Tuberculosis New Directions and New Detection Tools	15
Prognosis of Patients with Tuberculosis	565
Report and Information	
Tuberculosis Annual Report 2010— (8) Treatment of Tuberculosis-1	311
Tuberculosis Annual Report 2010— (9) Treatment of Tuberculosis-2	439
Tuberculosis Annual Report 2010— (10) Treatment Outcomes	491
Tuberculosis Annual Report 2011 — (1) Summary of Tuberculosis Notification Statistics and Tuberculosis in Foreign Nationals	571
Tuberculosis Annual Report 2011 — (2) Childhood and Elderly Tuberculosis	611
Tuberculosis Annual Report 2011 — (3) Case Finding and Condition of Tuberculosis on Diagnosis	639
Tuberculosis Annual Report 2011 — (4) Tuberculosis Treatment and Treatment Outcomes	677
Committee’s Report	
Guidelines for Chemotherapy of Pulmonary Nontuberculous Mycobacterial Disease— 2012 Revised Version	29
Guidelines for Using QuantiFERON® TB Gold In-Tube	33
Memorial Lecture by Imamura Award Winner	
Genetic Research about <i>Mycobacterium avium</i> Complex	17
Disease Progression of <i>Mycobacterium avium</i> Pulmonary Infection and the Mycobacterial Variable Number Tandem Repeat (VNTR) Typing	23
The 87th Annual Meeting Symposium	
Health Examination in Future at the Era of Low Tuberculosis Incidence— From Contacts Examination toward Active Epidemiological Studies	323
Biologics and Mycobacterial Diseases	337
Strategies for <i>Mycobacterium avium</i> Complex Infection Control in Japan: How Do They Improve the Present Situation?	355
The 87th Annual Meeting Mini-Symposium	
Reconsideration of the Admission and Discharge Criteria of Tuberculosis Patients in Japan	373

The 88th Annual Meeting Invited Lecture

National Surveys of the Prevalence of Tuberculosis Disease — Overview, Progress and Lessons Learnt 777

The 88th Annual Meeting Educational Lecture

Clinicoradiological Diagnosis of Pulmonary Tuberculosis that Understood the Life of a Patient 763

The 88th Annual Meeting Symposium

Prospects for the Renovation of the Medical System for Tuberculosis and Human Resource

Development in the Near Future 785

Immunological Background on Non-Tuberculous Mycobacteriosis 797

The 88th Annual Meeting Mini-Symposium

Expanding the Role of the Nursing Profession in Tuberculosis Medical Services 815
